DETAILED ACTION

Response to Amendment

1. The reply filed December 18, 2008 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Information Disclosure Statement

3. The information disclosure statement filed on February 8, 2006 does not fully comply with the requirements of 37 CFR 1.98(b) because: there is no U.S. patent or U.S. patent application publication having the number 2003/00715154A1.

Claim Rejections - 35 USC § 112

4. Claims 8- rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 20-27 recite "the second valve element" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claims 25-27 depend on canceled claims.

Claim Rejections - 35 USC § 102

Art Unit: 3752

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

6. Claims 8, 9 are rejected under 35 U.S.C. 102(a) as being anticipated by Kuegler (WO03/054374).

See U.S. 6,896,208 to Kuegler.

Kuegler discloses an injection valve comprising:

- a first valve element 28 having a pressure face 42;

- a pressure chamber 40;

- an actuating device 44 acting in the closing direction;

- a second valve element 128 having a control face 62;

- a hydraulic control chamber 60;

- a high pressure connection 64;

- an actuating device 84 acting in the opening direction;

- a control valve 66;

- an additional valve device 72;

- a first terminal position (valve 72 is open and passage 48 is connected with low pressure 78);

- a second terminal position (valve 72 is closed) where pressure chamber 40 is connected to high pressure connection 22 and disconnects at least one region 77 of control chamber 60 from the high pressure connection 22, 64;

an intermediate position (intermediate position of valve 72).

The functional recitation accompanying the first, second and intermediate positions of the additional valve device merely requires the ability to so perform. Kuegler's device has the capability to so perform by way of relief valve 66, valve member 72 and actuator 84. While features of an apparatus may be recited either structurally or functionally, claims directed to an apparatus must be distinguished from the prior art in terms of structure rather than function. MPEP 2114.

Allowable Subject Matter

7. Claims 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments with respect to claims 8 and 9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3752

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
